

Agency – Managed Care Levels in Milan

The Managed Care model does not have any billing limitation at the moment. However, we have created levels in the system for managed care patients. These levels give you an opportunity to set the limitations.

The level will need to be selected when you are on the prior auth screen when creating an Initial/Extension. A managed care level is required when your txplan payor is Aetna MCD, Humana MCD, or OKComplete MCD. The managed care levels will need to be manually selected since the system will not auto select them.

- Managed Care 1 (\$623/month) (Similar to Level 1)
- Managed Care 2 (\$815/month) (Similar to Level 2)
- Managed Care 3 (\$867/month) (Similar to Level 3)
- Managed Care 4 (\$1171/month) (Similar to Level 4)
- Managed Care High (\$2500/month) (Less restrictions)

PriorAuth #955646 for Bravo, Johnny

Status: Proposed | Facility1: Gotham OMHC | Facility2: Gotham OMHC

Level: Level III | MainPayor: Aetna MCD | Duration: 6 Months
